What Young India Wants

Chetan Bhagat

What Young India Wants Chetan Bhagat

Why is the suicide rate so high among students? Why is there so much corruption in India? Can't our political parties ever work together? Does our vote make any difference at all? We love our India, but shouldn't some things be different?

All of us have asked these questions at some time or another. So does Chetan Bhagat, India's best-loved author, in *What Young India Wants*, his first book of non-fiction, which is based on his vast experience as a successful writer and motivational speaker. In clear prose and with great insight, he analyses some of the complex issues facing modern India, offers solutions and invites discussion, and comes, at the end, to a simple but important question: unless we are all in agreement on what it is going to take to make our country better, how will things ever change?

If you want to understand contemporary India, the problems that face it, and want to be a part of the solution, *What Young India Wants* is the book for you.

This is a new release of a previously published edition.
