Chronic Illness, Spirituality, and Healing: Diverse Disciplinary, Religious, and Cultural Perspectives

Chronic Illness, Spirituality, and Healing: Diverse Disciplinary, Religious, and Cultural Perspectives

This book examines the relationship between chronic illness, spirituality, and healing from interdisciplinary, multicultural, and interreligious perspectives. Contributors include professionals working in traditional, holistic and integrative clinical settings, as well as religious studies scholars and spiritual practitioners from diverse religious and cultural contexts. Authors consider how biomedical care might be blended with spiritual practice that attends to the well-being of people living with chronic conditions through the mind-body-spirit-environment relationship. The book is relevant to the disciplines of health care, spiritual care, and social services; religious studies, disability studies, and cultural studies; and to people living with chronic illnesses.
