Compiled by a world-renowned Islamic scholar and spiritual guide, "Principles of Islamic Spirituality, Part 2: Contemporary Sufism & Traditional Islamic Healing" is the second of a multi-volume treatise written for western readers. It defines the current negatively impacted state of the human psyche, the causes of mental and spiritual illnesses and their treatment with traditional Islamic healing. While this historic work draws upon authentic legal precedents and religious explanations from various Islamic schools of thought that form the majority Muslim view, it is presented for laypersons in easily understood terms and is highly recommended for any study of mainstream Islam and its moderate views of today's world.
