Contexts for Assessment and Outcome Evaluation in Librarianship: 35 (Advances in Librarianship) A Woodsworth, W D Penniman

The Advances in Librarianship Series seeks to publish in-depth chapters in all areas of library and information science and in all types of settings in which information is developed, accessed, preserved, and delivered. It aims to provide critical analyses of issues which are current and timely in a rapidly changing information world. Content is developed based on viewpoints, in-depth literature reviews, current research and critical analyses of issues, with the aim of producing solutions to current problems in libraries and related fields including the information industry, education of information professionals, management, and operations of all types of libraries. The publication strives to present solutions that can be applied and can make improvements in the field.
