Children With Tracheostomies Resource Guide (Singular Resource Guide Series) Marilyn K. Kertoy
Children with Tracheostomies Resource Guide is the first text to focus exclusively on the speech and language assessment, intervention, and application of procedures for the care of children with tracheostomy. This comprehensive text assists the speech language pathologist in understanding the changing health and communication status of children with tracheostomy and suggests treatment approaches for both children with tracheostomy and those who are no longer tracheostomized but require on-going speech and language services. Written in straightforward language that clearly explains and defines difficult medical terminology while effectively integrating clinical and research information.
