Understanding Knowledge as a Commons: From Theory to Practice (MIT Press) Charlotte Hess, Elinor Ostrom

Knowledge in digital form offers unprecedented access to information through the Internet but at the same time is subject to ever-greater restrictions through intellectual property legislation, overpatenting, licensing, overpricing, and lack of preservation. Looking at knowledge as a commons--as a shared resource--allows us to understand both its limitless possibilities and what threatens it. In *Understanding Knowledge as a Commons*, experts from a range of disciplines discuss the knowledge commons in the digital era--how to conceptualize it, protect it, and build it. Contributors consider the concept of the commons historically and offer an analytical framework for understanding knowledge as a shared social-ecological system. They look at ways to guard against enclosure of the knowledge commons, considering, among other topics, the role of research libraries, the advantages of making scholarly material available outside the academy, and the problem of disappearing Web pages. They discuss the role of intellectual property in a new knowledge commons, the open access movement (including possible funding models for scholarly publications), the development of associational commons, the application of a free/open source framework to scientific knowledge, and the effect on scholarly communication of collaborative communities within academia, and offer a case study of EconPort, an open access, open source digital library for students and researchers in microeconomics. The essays clarify critical issues that arise within these new types of commons--and offer guideposts for future theory and practice. Contributors: David Bollier, James Boyle, James C. Cox, Shubha Ghosh, Charlotte Hess, Nancy Kranich, Peter Levine, Wendy Pradt Lougee, Elinor Ostrom, Charles Schweik, Peter Suber, J. Todd Swarthout, Donald Waters

From reader reviews:

Gregory Throop:

In this 21st century, people become competitive in each and every way. By being competitive now, people have to do something to make them survive, being in the middle of the particular crowded place and notice by means of surrounding. One thing that sometimes many people have underestimated the item for a while is reading. That's why, by reading a publication your ability to survive boost then having chance to endure than other is high. In your case who want to start reading the book, we give you this kind of Understanding Knowledge as a Commons: From Theory to Practice (MIT Press) book as basic and daily reading guide. Why, because this book is usually more than just a book.

Joseph Lewis:

As people who live in often the modest era should be revise about what going on or facts even knowledge to make all of them keep up with the era which can be always change and move ahead. Some of you maybe will certainly update themselves by reading through books. It is a good choice in your case but the problems coming to a person is you don't know what one you should start with. This Understanding Knowledge as a Commons: From Theory to Practice (MIT Press) is our recommendation to help you keep up with the world. Why, since this book serves what you want and need in this era.

Suzanne Cicero:

This Understanding Knowledge as a Commons: From Theory to Practice (MIT Press) are generally reliable for you who want to become a successful person, why. The main reason of this Understanding Knowledge as a Commons: From Theory to Practice (MIT Press) can be one of many great books you must have will be giving you more than just simple examining food but feed you with information that might be will shock your before knowledge. This book is actually handy, you can bring it almost everywhere and whenever your conditions at e-book and printed types. Beside that this Understanding Knowledge as a Commons: From Theory to Practice (MIT Press) forcing you to have an enormous of experience including rich vocabulary, giving you trial of critical thinking that we all know it useful in your day activity. So , let's have it appreciate reading.

Alita Schmidt:

As a scholar exactly feel bored for you to reading. If their teacher requested them to go to the library as well as to make summary for some guide, they are complained. Just tiny students that has reading's internal or real their hobby. They just do what the professor want, like asked to go to the library. They go to generally there but nothing reading critically. Any students feel that examining is not important, boring as well as can't see colorful pics on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this Understanding Knowledge as a Commons: From Theory to Practice (MIT Press) can make you truly

feel more interested to read.
