Learning Jakarta Struts 1.2: a concise and practical tutorial Stephan Wiesner

The book sets out to get Java developers up to speed and confident with Struts as quickly as possible. It does not explain every feature in Struts, but takes a logical path through the essential information, with the emphasis on practical applications. This book is written for Java developers planning to develop web applications, who are new to Struts. It expects familiarity with Java, JSP and Servlets to a degree, although more obscure elements are explained. It covers Struts 1.2.
