Ned Rorem

The Later Diaries of Ned Rorem: 1961-1972 Ned Rorem

The esteemed American composer and unabashed diarist Ned Rorem provides a fascinating, brazenly intimate first-person account of his life and career during one of the most extraordinary decades of the twentieth century

Ned Rorem is often considered an American treasure, one of the greatest contemporary composers in the US. In 1966, he revealed another side of his remarkable talent when *The Paris Diary* was published, and a year later, *The New York Diary*, both to wide critical acclaim. In *The Later Diaries*, Rorem continues to explore his world and his music in intimate journal form, covering the years 1961 to 1972, one of his most artistically productive decades.

The Ned Rorem revealed in *The Later Diaries* is somewhat more mature and worldly than the young artist of the earlier works, but no less candid or daring, as he reflects on his astonishing life, loves, friendships, and rivalries during an epoch of staggering, sometimes volatile change. Writing with intelligence, insight, and honesty, he recalls time spent with some of the most famous, and infamous, artists of the era—Philip Roth, Christopher Isherwood, Tallulah Bankhead, and Edward Albee, among others—openly exploring his sexuality and his art while offering fascinating, sometimes blistering, views on the art of his contemporaries.
