Many publications on lacustrine systems concentrate on reconstructing paleo-environments, deciphering paleoclimate or estimating hydrocarbon source potential.

This is the first memoir to give attention to describing the occurrence, distribution and character of sandstones in various lake settings. The volume is the outcome of a Hedberg Conference held in Baku, Azerbaijan in 2004.

This memoir is divided into four sections beginning with a global overview, and followed by two sections covering lacustrine systems in compressional and extensional regimes. The volume concludes with a series of papers on modern lake regimes.
