Andr s Bello

Selected Writings of Andr s Bello (Library of Latin America) Andr s Bello

Andr s Bello was a towering figure in nineteenth-century Latin America, as influential and as famous there as Thomas Jefferson is in the United States. Poet, politician, educator, essayist, philosopher, he wielded astonishing influence and played a major role in shaping the national identities of newly independent Latin American countries. He held several key government positions, authored Chile's civil code, launched several periodicals, wrote prodigiously on a vast array of subjects, and implemented important educational reforms. Available here in English for the first time, the *Selected Writings of Andr s Bello*, edited by Iv n Jaksic, gathers wide-ranging selections that explore such subjects as grammar and philology, constitutional reform, the aims of education, international relations, historiography, Latin and Roman Law, government and society, and many others. The *Selected Writings of Andr s Bello* gives us a generous sampling of a gifted thinker who must be included in any understanding of the origins and development of Latin America.
